

Libraries Linking Idaho – A Work Plan for 2010-2011

Libraries Linking Idaho (LiLI) is a project that serves Idaho residents by leveraging library resources to provide more services than a single library can offer. LiLI provides coordination for statewide initiatives that support better library service for users in Idaho's communities and schools.

In light of this purpose, the LiLI Steering Committee directs its efforts toward:

- Offering a statewide perspective on library issues,
- Maximizing the quantity and quality of shared library content,
- Advocating for broadband infrastructure throughout Idaho, and
- Facilitating access to library materials, regardless of material format.

2010-2011 Focus

- ☐ Carry out LiLI Database contract renewal and transition
- ☐ Advocate for broadband infrastructure in Idaho
- ☐ Provide training and education for the sustainability of LiLI Unlimited participation
- ☐ Investigate models for improving user access to library resources
- ☐ Develop educational opportunities to assist library staff with the adaption to new tools
- ☐ Expand resources to libraries through enhanced partnerships

Ongoing Activities

- ☐ Sustain statewide LiLI Database program
- ☐ Provide support for LiLI Unlimited program participants
- ☐ Provide training to support statewide networking activities
- ☐ Develop training opportunities to educate about new technologies
- ☐ Promote the use of the LiLI Portal as a gateway to information for Idaho citizens
- ☐ Promote LiLI Express as an option for libraries to expand user access
- ☐ Leverage Idaho libraries as a group for shared purchase of content where it is beneficial to do so
